Dr. Rob van der Bijl

荷蘭 都市交通與TOD發展策略規劃專家

Rob Van der Bijl獲得荷蘭台夫特(Delft)科技大學的工程博士學位，是都市規劃師、獨立顧問、也是荷蘭阿姆斯特丹以運用創新方法進行研究設計國際知名的TOD專家博士。

他的研究特色在於運用多學科跨領域的方法結合都市計畫、交通、文化以及智慧技術等面向。從1987年成立都市規劃工作室開始，即積極投入TOD與航空城發展以及TOD與社會賦權(Favas.net, since 2009)等相關計畫。他的客戶來自許多城市及城市首長，也協助都市區域發展和企業客戶。TOD與航空城發展部分，則著重在航空城的區域發展規劃、航空城大眾運輸無縫式整合規劃與都市交通連接，曾參與阿姆斯特丹史基浦(Schiphol)機場交通連接、日本福岡機場公共交通聯結設計、荷蘭恩荷芬區域與都市發展策略暨區域機場設置規劃等。

Rob Van der Bijl is an urban planner, independent consultant and 'TOD doctor' with an Amsterdam, Netherlands-based practice known for its innovative approach to research and design. His projects are characterized by a multidisciplinary approach at the intersections of urban planning, transport, culture and technology. Van der Bijl received his engineering degree and Ph.D. from the University of Technology in Delft (Netherlands). Recent projects include, application of transit oriented development (TOD), assessment of real estate potential of public transport station environments, design and construction of bus and tramway infrastructure. Van der Bijl applies internationally his in-depth knowledge of Dutch cycling.

Since 1987 when Rob van der Bijl founded his urban planning office TOD was an important topic in many assignments and projects, explicitly related to rail-based public transport (Lightrail.nl, since 1998), and recently extended to social empowerment (Favas.net, since 2009). He welcomed cities and their municipalities as clients, or assisted urban regions and entrepreneurs. Particularly he was happy to support citizens and grass roots initiatives. Moreover he taught and published a lot regarding TOD.
