

45TH CONGRESS OF INTA

LISBON & OEIRAS, PORTUGAL | 9-11 MARCH 2023

FULL PROGRAM

From City to Civitas

Taking care of the City and giving it
back to its inhabitants

INTA45 SPONSORS

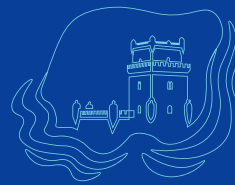

OEIRAS VALLEY

Porto de Lisboa

INTERNATIONAL URBAN DEVELOPMENT ASSOCIATION

Our purpose

In light of the growing number of crises, INTA 45 examines the transformations, if not the ruptures, that we are currently witnessing rather than acting upon. They cover in particular environmental health, the habitat-work relationship, transport and active mobility, sustainable construction and real estate, new territorial geographies and ways of living; all of which are considered necessary factors for the vitality and well-being of a community.

In a global context of social, economic and environmental crisis, but also political and military crisis, what are the changes/transitions to be made in order to move from the city to the civitas ?

These sectoral transformation objectives are linked to interdependent sectors which must evolve; they can be grouped or extended according to circumstances: health-food-agriculture, innovation-local economy-employment, construction-housing-development, active mobility-urban logistics, etc.

The agenda of local leaders also includes issues that go beyond the urban framework:

How can territories be organised to achieve greater solidarity between them and to make public action more efficient, especially regarding **health and well-being (including environment and food) : which visions, which tools ?**

Conducting development more on the basis of the land and its inhabitants rather than on the basis of administrative or institutional frameworks that showed their limitations during the crisis: **can we still live in a metropolis and a city ?**

Organise the interactions between territories around chains of solidarity and complementarities born from the social pressures linked to the different crises. **How can we foster social innovation to renew partnerships between institutional actors and inhabitants' initiatives ?**

Mobility and territory: the local shift; the effects of disruptions are calling for a reduction in motorised mobility. **How to articulate the different modes of travel in a mobility basin, which must serve centres, suburbs and peripheries that are increasingly distant from each other ?**

These themes overlap, reinforce one another and open up new perspectives; they are designed to provide relevant insights to local elected representatives on the nature and extent of the changes to be made. They will be addressed simultaneously, both synthetically and in a holistic approach.

We look forward to seeing you there.

The INTA45 Staff

Congress venue

Our discussions will take place in both INTA45 partner cities : Lisbon and Oeiras

The reception of the participants on the first day will be held at the Lisbon City Hall; solutions will then be provided for travelling to the hotels and the following of the congress conferences on the next days

1st day - Lisbon

Lisbon Town Hall

Praça do Município, 1100-038 Lisbon

Lisbon, the westernmost capital city of the European continent, has more than 545,000 inhabitants, reaching a total of 2.8 million in its metropolitan area.

A global city, it is notably home of an important container port on the Atlantic coast of Europe.

2nd day - Oeiras

Temple of Poetry

R. José de Azambuja Proença, 2780-257 Oeiras

Being part of the Lisbon metropolitan area, Oeiras is a city of 172,000 inhabitants and is one of the main centres of the Lisbon Metropolitan Region economy. It is also a territory of innovation, including a science and technology park - Taguspark.

Participants can register for a technical visit to Lisbon or Oeiras on 11 March.

List of proposed visits on page 7

Daily program

Thursday, March 9 - Lisbon Town Hall

TIME	EVENT
11:00	GENERAL ASSEMBLY OF INTA
14:00	REGISTRATION AND RECEPTION OF PARTICIPANTS
15:00	OPENING SESSION Fernando Nunes da Silva (President of INTA, researcher at CiTUA, IST), Teresa Almeida (President of the CCDRLVT - Coordination and Regional Development Commission of Lisbon and Tagus Valley), Isaltino Morais (Mayor of Oeiras), Carlos Moedas (Mayor of Lisbon).
16:00	INAUGURAL LECTURE "The search for new territorial balances: city and peripheries towards healthier and sustainable spaces" Alfonso Vegara (Architect and urban planner, President of the Metropoli Foundation at Madrid, former President of AIU/ISOCaRP).
16:30	CONFERENCE : "THE POST-COVID CITY: THE NEW CHALLENGES OF THE BUILT ENVIRONMENT AND MOBILITY" Francesc Ventura (Architect and urban planner, founder of "Eficiencia Locacional" at Barcelona, former Director General of Architecture and Housing of the Government of Catalonia, former president of FIHUAT).
17:15	THEME 1: "TERRITORIES AND HEALTH: WELL-BEING, INNOVATION AND URBAN AGRICULTURE" Helle Juul (Architect, Arkitekt MAA, Ph.D., CEO Juul/Frost Arkitekter, Copenhagen), Kerri Farnsworth (Founding Director, 360° Cityshapers and PhD candidate in Territorial Engineering & Spatial Planning, IST), Miguel Amado (Professor at IST - University of Lisbon, researcher at CERIS - Civil Engineering Research and Innovation for Sustainability). Moderator - Representative of Oeiras municipality
18:30	DEBATE
19:00	RECEPTION "PORT OF HONOR"
19:45	DEPARTURE OF BUSES TO HOTELS IN OEIRAS

Friday, March 10 - Temple of Poetry, Oeiras.

TIME	EVENT
09:00	MORE INTELLIGENT, OPEN AND PARTICIPATORY URBAN MANAGEMENT Hans Christian Christiansen (Senior advisor, Smart City Lab, Municipality of Copenhagen)
09:45	THEME 2 : "PUBLIC PARTICIPATION AND SOCIAL MOBILIZATION IN THE DIGITAL AGE FOR A HEALTHIER AND MORE COHESIVE CITY" Robert Olivier (Political scientist and President of the Jacques Cartier Centre Foundation, Montreal, Canada), Diana Alejandra Rodríguez (Director of the Administrative Department of the Office of the Public Space of Bogotá), Michel Sudarskis (Former INTA Secretary general). Moderator - Jorge Gonçalves (Professor at IST – University of Lisbon, researcher at CITUA – Centre for Innovation in Territory, Urban Planning and Architecture).
10:30	DEBATE
11:00	COFFEE BREAK
11:15	LIVING IN CITIES AND METROPOLISES : WHAT FUTURE? Henk Bouwman (Architect and urban planner, secretary general of METREX – Network of European Metropolitan Regions and Areas).
11:45	THEME 3 : "SUSTAINABLE HOUSING: URBAN REGENERATION, SOBRIETY AND ACCESSIBLE HOUSING FINANCE POLICIES" Christophe Lamontre (Architect and urban planner, former asset manager and director of project management at RATP), Filipa Roseta (Deputy Mayor for Housing at the municipality of Lisbon), Joana Baptista (Deputy Mayor at the municipality of Oeiras). Moderator – Eduarda da Silva Costa (Professor and researcher at IGOT – Institute of Geography and Territory Management – University of Lisbon)
12:30	DEBATE
13:00	LUNCH ON SITE
14:30	"THE CITY AND WATER: THE CHALLENGES OF CLIMATE CHANGE" João Pedro Costa (Professor at the Faculty of Architecture of Lisbon, former deputy mayor in Lisbon, architect and urban planner).

Friday, March 10 (Part 2)

TIME	EVENT
15:15	THEME 4 – “THE CITY AND WATER: RIVERBANKS, COASTS, BLUE AND GREEN CORRIDORS” Isabel Loupa Ramos (Professor at IST – University of Lisbon, researcher at CITUA – Centre for Innovation in Territory, Urban Planning and Architecture), Rita Justesen (Head of Planning and Sustainability, City and Port of Copenhagen), Myriam Arabian (General Coordinator of the Operating Body of the Cleaning Service of the Municipality of Puebla, Mexico and Secretariat of the Environment), Carlos Correia (President of the board of the Port of Lisbon). Moderator - Paulo Pardelha (Architect and urban planner, Director of the Department of Urban Planning at the municipality of Lisbon)
16:15	DEBATE
16:30	COFFEE BREAK
17:00	ROUNDTABLE: “CRISIS MANAGEMENT AND URBAN PROJECTS: ANOTHER POSSIBILITY OF COMPLEMENTARITY?” Maurice Charrier (Former president of INTA, former Mayor of Vaulx-en-Velin and former Vice-President of the Grand Lyon, responsible for Urbanism and Spatial Planning Policy), Didier Drummond (Architect and urban planner), Sabina Mujkic (Researcher at Urban Planning Institute of the Republic of Slovenia), Joana Almeida (Deputy Mayor for Urban Planning at the municipality of Lisbon) Moderators – Michel Sudarskis (Former secretary general of INTA) / Jakub Mazur (President of METREX- Network of European Metropolitan Regions and Areas).
18:00	CLOSING SESSION Fernando Nunes da Silva (President of INTA, CITUA/IST), José António Lameiras (Engineer and urban planner, President of APU – Portuguese Association of Urban Planners), Teresa Heitor (Professor at IST and President of CITUA), representative of Lisbon municipality , Isaltino Morais (Mayor of Oeiras).
20:00	CONGRESS DINNER Cellar of the Palace of the Marquis of Pombal, Oeiras

Saturday, March 11 - Study visits

TIME	EVENT
09:30	ALTERNATIVE STUDY VISITS (PRIOR REGISTRATION) 1. Lisbon waterfront and Parc des Nations district 2. Pedestrian and bicycle axis on the Jamor riverbank, municipal residential areas in Politeira (Barcarena) and youth housing in Oeiras 3. Boat trip in the Tagus and visit to the port of Lisbon.
12:30	END OF STUDY VISITS

About INTA

Created in 1976, INTA is a non-profit association, born from the will of a hundred political and economic leaders who formed the international movement of new towns (AIVN).

Public and private actors, these leaders wanted to have effective tools to facilitate the exchange of experiences and the transfer of operational know-how at a time when differentiated urban policies were being developed to meet the infrastructure, housing and employment needs of what was to become the "Glorious Thirty".

For 46 years, INTA has organised a wide range of urban actions in France and abroad - international congresses, on-site interventions by multidisciplinary teams of peers, training courses and publications - at different scales of territory and governance, allowing for a multiplication of points of view and proposals for action at various time-scales.

This 45th congress is part of the series of activities that allowed us to address, in a prospective and operational approach, issues that are priorities for public decision-makers and inhabitants today such as health, well-being, food, affordable housing, spatial planning, active mobility, climate and renewable energies, metropolitan and rural territories, partnerships between actors and territories.

For more information on INTA and its work,
visit inta-aivn.org

INTA45 Speakers

Rui Alexandre

Rui Alexandre works at the Port Authority of Lisbon since 1991 where he has developed several projects for the riverfront of Lisbon. Currently he is Head of the Territorial Management Division. He was a Fellow student at Jacksonville State University in Jacksonville, Alabama, USA. He holds a degree in architecture from the Faculty of Architecture - Technical University of Lisbon and a post-graduate degree in Territorial Management from the Faculty of Social and Human Sciences - Universidade Nova de Lisboa.

Rui Alexandre was a member of the National Admission Council of the Ordem dos Arquitectos (2004/2007), President of the Regional Admission Council of the Southern Regional Section of the Ordem dos Arquitectos (2007/2009) and President of the Southern Regional Board of Directors of the Ordem dos Arquitectos (2010/16).

Joana Almeida

Maria Joana Coruche de Castro e Almeida has been a Councillor at the Lisbon City Council since September 2021 and is deputy mayor for Urbanism, Information Systems and Smart City, and Transparency and Corruption Prevention. She graduated in Territorial Engineering from IST in 1997, became a Master in Regional and Urban Planning in 2004 at the Technical University of Lisbon, and became a Post-Graduate in Mediation and Alternative Means of Conflict Management and Resolution in 2011, at the New University of Lisbon. She obtained her PhD in Territorial Engineering at IST in 2013.

She started teaching at IST in 2001 and has been an Assistant Professor since 2013. She is a researcher member of CiTUA - Centre for Innovation in Territory, Urbanism and Architecture. She received a distinction in the Competition to Support the Development of Innovative Ideas of IST (TeclInnov) in 2018. Joana Almeida has participated in several research projects and provision of services in the following domains: 1) Spatial planning; 2) Regulation of urban taxes; 3) Urban planning; 4) Management and evaluation of real estate projects; 5) Urban and metropolitan governance; 6) Collaborative approaches to conflict management; 7) Tools for Public Participation; 8) Socio-urban and tourism monitoring; 8) Dynamics of transformation of historical neighbourhoods; 9) Regulation of local accommodation in Lisbon and other European cities. She is the author and co-author of several articles and book chapters.

Miguel Amado

Miguel Amado (born 1959) is a professor at the Instituto Superior Técnico - IST of the University of Lisbon, where he teaches Design Studio and was past-coordinator of the master course of Architecture. He also is responsible for the GEOTPU.LAB - Laboratory of Territory, Urban Planning, Architecture and Environment Studies.

Amado received his BA in Architecture from the Faculty of Architecture of the Technical University of Lisbon, the MSc in Spatial Planning and Environmental Planning and the PhD in Environmental Engineering from the New University of Lisbon.

His research at CERIS - Civil Engineering Research and Innovation for Sustainability, focus on the transformation of the City; Adaptive housing as a model for Sustainable Habitat;

Regeneration methodologies of informal urban areas in Developing Countries. Amado is the holder of a patent - Technical Wall. His work also includes lines of investigation of the relation of urbanism with health; Renewable energy and the construction of Hi-Rise buildings in timber; Sustainable Tourism. Have more than 100 publications (books and papers) and have projects in more of 10 different countries.

Joana Baptista

Joana Baptista have a Law Degree from the Lusíada University and a Post-graduation in Municipal Law, University of Lisbon, Faculty of Law (2005).

MBA in ISCTE – Institute University of Lisbon (2008). In 2021 she was elected as a member of the City Council of Oeiras Municipality, with the following areas: Public works, Environment and Quality of life, Mobility and Transportation, Municipal Civil Protection, appointed Member of the Board of Directors of Intermunicipal Services of Water and Sanitation of Oeiras and Amadora. During the period from 2017 to 2021 she was elected as a member of the City Council of Oeiras Municipality. From 2011 until 2017 she was the

Head of Division, Department of Municipal Police and Municipal Civil Protection (Oeiras Municipality). From 2008 to 2011 she worked as Coordinator of Municipal Police and Municipal Civil Protection Departments (Oeiras Municipality). Additionally, since 2006 to 2008, she worked as Jurist at the Litigation and Legal Support Office of Oeiras Municipality.

Henk Bouwman

Henk Bouwman is Secretary General of METREX, the Network for European Metropolitan Regions and Areas, with 56 members organizations from all over Europe.

Since his appointment in 2016 he has been building out the network and he has been instrumental in developing new METREX focus groups and portals to reach out beyond the network. The metropolitan dimension is the common thread in his work. Currently he is coordinating work on the METREX Metropolitan Vision for Europe 2050 to strengthen the role of Metropolitan regions and areas all over Europe. Henk Bouwman is educated at the University of Technology in Delft and holds a master's degree in Architecture and Urbanism. He has held a number of academic posts.

Maurice Charrier

Maurice Charrier is Honorary Mayor of Vaulx en Velin (France),

Honorary Vice President of Grand Lyon (Metropolis), in charge of regional planning, urban requalification of the urban social development and of the social cohesion policies.

As such, he was a member of the National Council of Cities and was its vice president. Former President of INTA. Militant in the Popular Education Movement.

Hans Christian Christiansen

Presently is Senior Advisor of the Smart City Lab at the municipality of Copenhagen.

More than 15 years of experience within the areas of cross-European cooperation and multi stakeholder processes. More than 10 years of experience managing larger project consortiums. Extensive experience with fiscal and financial aspects of EU co-funded projects. Extensive experience with planning and managing cross European projects. Thorough knowledge of and experience with the policy area of EU co-funded projects. Main responsible for the design process, application, and management of a large range of co-funded projects at the Technical and Environmental Administration, City of Copenhagen; European

cooperation consortiums, European and national co-funded Administrative project manager for several Horizon 2020 co-funded projects within the area of Mobility, Circular Economy, and Smart City.

João Pedro Costa

is an Architect, PhD in Urbanism, and professor at Faculty of Architecture, University of Lisbon, where he coordinates the PhD in urbanism and the 3rd year of the integrated master's in architecture. He is the President of CIAUD, the Research Centre of Architecture, Urbanism and Design. He develops research on adaptation to climate change and urbanism and on spatial planning in Portugal; and regular university extension, presently coordinating the elaboration of five municipal spatial plans in Timor-Leste. He was chief of staff in the XV Constitutional Government and elected councillor in the Lisbon City Council.

Eduarda Da Silva Costa

Eduarda Marques da Costa, is associate professor in the Institute of Geography and Spatial Planning of University of Lisbon and researcher in the Centre of Geographical Studies, where she is coordinator of Modelling and Spatial Planning Research Group.

The main scientific areas of their interest are Regional, Urban and Local Planning, Health Cities, Cohesion Policy and Evaluation of Public Policies. With participation in a large number of research projects (30 international and 22 national) and consulting studies (around 30 projects), namely in DG Regio, she participates in evaluation boards: 2007-13, Sounding Board of ESPON programme; 2016-22, Ad-Hoc expert in URBACT III for "Health" and "Support to local

authorities and other stakeholders in designing & delivering integrated and participatory policies"; 2020-21, Academy of Finland and of Italian National Agency for the Evaluation of Universities and Research Institutes; and currently, Postgraduate Fellowships da Fundação La Caixa and the Research Board of Pontificia Universidad Católica del Perú. She is a Board Member of International Urban Planning and Environment Association and Cohesion Policy Network – RSA.

Didier Drummond

Architect and urban planner | He learnt his craft in Brazil with the Oscar Niemeyer practice and in the favelas of Rio de Janeiro. Since 1997 he lectured in architecture and urban planning at the Ecole d'Architecture de Paris la Seine and at the Académie Libanaise des Beaux-Arts. Author of numerous projects for public spaces, housing and public facilities, such as the Renovation of the pedestrian area Montorgueil/Saint-Denis in Paris - Central public spaces and garden in Beirut - Renovation of the Pierre de Coubertin Stadium in Paris - Evry Stadium - Towers Housing in HANOI and JAKARTA - CIPUTRA new town - Renovation of the headquarter of the Paris Chamber of

commerce - Project for the renovation of the TIFFANY Flagship store in New-York - 5 th Av. - RATP - RER A Line Command and Surveillance Centre in Vincennes. Publications Architects of the Favelas – Dunod Edition Distinctions in 2001, nominated in France for the « Palmares National de la Rehabilitation » In 1985, awarded the National Committee prize for the recognition of innovation in furnishing. In 2018, awarded the Geste d'Or – Architecture and Urban design.

Kerri Farnsworth

Kerri is the Founding & Managing Director of 360° Cityshapers, urbanists and placemakers in cities & metropolitan areas across the world. She originally trained in a private international real estate investment & development company but switched early in her career to focus on urban development & regeneration. She has since worked in both the public and the private sector in Europe, SE Asia, Central & South America and the Middle East, and became an independent consultant in 2010. She has a BSc (Hons) in Environmental Sciences and an MSc International Urban Planning & Design from the University of Manchester, and is currently a PhD student at IST-University of Lisbon, investigating the impact of COVID-19 on strategic urban planning for citizen health & wellbeing. She is also a qualified Project Manager

(APM) and has a Postgraduate Diploma in Strategic Communications & Marketing (CIM). Kerri is a Board Member of INTA, an RIBA UK Design Reviewer and a member of the Editorial Board of ThinkHouse, an online portal for housing research & innovation. She was the Lead Assessor for the European City of the Year Award from 2010-2019.

Jorge Gonçalves

Jorge Gonçalves has a PhD in Geography and Territorial Management and is a professor at Instituto Superior Técnico - University of Lisbon. He is currently responsible for disciplines such as Human Geography, Strategic Spatial Planning and Urban Governance. He is visiting professor at the University of Oviedo for the areas of urban planning and risks in the context of an Erasmus Mundus Joint Master Degree in Public Health in Disasters. He was coordinator, until 2021, of the joint Masters in Spatial Planning and Urbanism, which join 3 schools of the University of Lisbon.

He belongs to the board of CiTUA - Research Centre for Innovation in Territory, Urbanism and Architecture and coordinates the Spatial Justice Lab. Until 2022, he was main coordinator of

the research project MetroGov3C: Governance in the Lisbon Metropolitan Area in a context of Conflict, Competition and Cooperation. He has published several papers and chapters in scientific journals and books related to the themes of urban and metropolitan governance, public participation, strategic planning, among others.

Rita Justesen

Rita Justesen is Director of Planning & Urban Life at Copenhagen City and Port Development. CPH City and Port is carrying through the development of new urban areas in the City of Copenhagen with more than 10 billion square metres of floor area. Has the overall responsibility for developing mostly former harbour industrial areas into dense, diverse and liveable neighbourhoods with public high-class transport systems. Among the new neighbourhoods is the Nordhavn project, which started in 2008. Nordhavn is meant for 40,000 inhabitants and the same amount of workplaces. Today the amount of citizens has reached 3,500.

Rita Justesen has been Architect/Chief Consultant at the City of Copenhagen for almost 20 years and has been in charge of many of the larger projects for transformation in the Copenhagen area and especially in relation to the harbour waterfront. She is the author of more articles on the development of Copenhagen just as she often give lectures on the development and new architecture of Copenhagen.

Rita Justesen graduated 1985 of The Royal Danish Academy of Fine Arts, School of Architecture.

Helle Juul

Helle Juul, Architect, Ph.D. and Founding Partner of Juul Frost Architects, Vice president of the International Urban Development Association - INTA.

Helle Juul is a consultant for major Scandinavian cities and educational institutions. She is responsible for major strategic urban development projects as well as strategic campus development projects. Helle Juul is renowned for her applied and strategic research projects including 'Urban space as a catalyst for change' and 'The campus of the future'. Currently she has developed new recommendation to promote safety in urban spaces for The Danish Crime Prevention Council. With the interdisciplinary research project 'The Urban Health Culture of The Future' Helle has developed new tools to secure the link between urban health

and planning – The goal is to create an urban mindset about health and integrate health in the way we develop our cities and neighborhoods.

Christophe Lamontre

Since 2000 - Management of construction operations, real-estate valuation and urban development on RATP and third-party land allowing for real-estate restructuring to accommodate industrial growth of RATP. He has a good experience of this function and spent 8 years before the same position held in E.D.F (French Company of Electricity) from 1992 to 2000. Manager of several real-estate / industrial projects.

Isabel Loupa Ramos

She is trained as a Landscape Architect, holds a master in Human Geography and a PhD in Environmental Engineering.

She is an assistant Professor at Instituto Superior Técnico, University of Lisbon, where she teaches courses across a range of fields within the landscape and urban planning domain, landscape ecology and nature-based solutions.

She is invited professor at the University of Ghent. Previously, she was involved in research on urban floods and watershed management (Euroflood) at the National Center for Geographic Information (CNIG) and later in European research on urban river enhancement - URBEM and RIPROCITY. Her main research interests are focused at linking cultural and natural processes using scenario development and transdisciplinary approaches. She carries out her research activities at the CiTUA thematic line "landscape as a socio-ecological system".

More recently she is involved in projects exploring urban-rural synergies (ROBUST), valuing biodiversity in the planning instruments (BIOVALUE) by building on ecosystem services and green infrastructure planning. She is the elected representative of the European Chapter of Landscape Ecology (IALE-Europe) and the vice president of the Landscape Observatory of Charneca.

Sabina Mujkić

Dr Sabina Mujkić, is an urban and spatial planner, researcher at Urban Planning Institute of the Republic of Slovenia since 2003. She is educated at the University of Ljubljana and holds a doctorate in the field of architecture at the Faculty of Architecture and a master's degree in the Interdisciplinary Postgraduate Study of Spatial and Urban Planning. She is working in various international and national research and development projects as a leader and member of the interdisciplinary and multidisciplinary teams. Her professional expertise and interests include strategic sustainable urban and participatory spatial planning, comprehensive planning, and innovative urban approach, regenerative urban environment, circular city, smart and wellbeing cities.

Sabina passionately believes in creating a harmonious merger of social, environmental, economic, and spatial considerations to create and develop a better tomorrow's urban. She is visiting lecturer, keynote speaker, member of the jury for the international architectural and urban competition, the jury for master students, has served as the member of scientific board of various international conferences, reviewer, as well worked at humanitarian field.

Fernando Nunes da Silva

Fernando Nunes da Silva is Full Professor of Urbanism (retired) and researcher at the Center for Innovation in Territory, Urbanism and Architecture (CiTUA) at the Instituto Superior Técnico (IST), University of Lisbon.

Graduated in Civil Engineering (IST, 1980), post-graduated in Urban and Regional Planning (UTL) and in Transportation Planning (EPFL, 1983), PhD in Civil Engineering (1992) and aggregate in Urban Planning and Transportation (2000), by IST.

He is President of the International Association for Urban Development (INTA) and Vice-President of the Red Universitaria Iberoamericana de Territorio y Movilidad (RUIITEM).

He was deputy mayor at the Lisbon City Council in charge of Municipal Works (2009/11) and Mobility and Transport (2009/13), and was a founding member of the Portuguese Association of Urbanists and member of major urban planning associations. He has been a consultant in several municipalities and government entities in the country and abroad, where he has also developed university teaching activity.

Robert Olivier

Robert Olivier is President of the Centre Jacques Cartier Foundation and CEO of the Apero Group specializing in strategic planning for the transportation sector.

He also acts as a consultant for several firms as a strategic business advisor-EUROPE and as a strategic planning coach for start-ups and established companies. He is currently acting as a patient partner with the Centre Hospitalier Universitaire de Montréal with the mandate to represent patients in the review of medical processes. Since 2008, until recently, he was a visiting professor at the Conservatoire National des Arts et Métiers in Paris/Lyon and scientific manager for the Indian firm Global Mass Transit. Since 2005, he has been involved in the development and management of projects in the housing sector,

whether as Vice-President of the Société d'Habitation et de Développement de Montréal or as President of housing complexes in Canada and the United States. From 2006-2011 he was Vice President Planning and Innovations at the Agence Métropolitaine de Transport and responsible for updating the strategic development plan for the Montreal region. He was President of the Canadian Urban Transit Association 2004-2006 and Vice-President of the International Association of Public Transport 2009-2011. He now sits on several national and international boards. Mr. Olivier lectures and publishes on transportation, urban design and strategic planning. He is a recipient of the Centre Jacques Cartier Medal which honors individuals who have contributed to the development of scientific exchanges between Canada and France and a recipient of the 2019 William G. Ross Award from the Canadian Urban Transit Association for lifetime achievement.

Paulo Pardelha

Architect and urban planner, Director of the Department of Urban Planning at the municipality of Lisbon. He graduated in Architecture in 1997. From 1999 to 2002 he was Assistant in the 5th year of the Architecture Degree of Lusófona University. Tutor in the Master in Sustainable Urbanism and Spatial Planning (MUSOT) at Universidade NOVA de Lisboa in the subject of Project in Sustainable Urbanism and Spatial Planning in 2016/2017, 2018/2019 and 2020/2021. Elected in the Assembly of Delegates of the Order of Architects, as representative of Lisbon and Tagus Valley, for the term 2020-2022. Director of the Urban Planning Department at the City Council of Almada, between 2008 and 2022. Currently he is Director of the Urban Planning Department at the Municipality of Lisbon.

Diana Alejandra Rodríguez

Diana Alejandra Rodríguez Cortés is a professional in International Relations with emphasis in Government and Public Management, she is completing a master's degree in Urban Regional Planning at the National University of Colombia. She has been representative of the town of Kennedy (Bogotá) and Councilor of Bogotá. Advisor to the National Government, in the Department of Cundinamarca and in the city of Bogotá. She is currently the Director of the Administrative Department of Public Space in Bogotá D.C. Additionally, with INTA she has participated in different international events on issues of urbanism and territorial development in Puebla, Mexico; Lisbon, Portugal; and Malmö, Sweden. Likewise, she has

contributed to the preparation of reports for the Third Summit of the United Nations, UN, for Habitat (Quito, 2016) and in working sessions on infrastructure and climate change at the T20 summit (Buenos Aires, 2018)

Filipa Roseta

Architect and university professor, integrating the Lisbon City Council Executive for the Coalition "Novos Tempos", as deputy mayor for Housing and Municipal Works.

She was a member of the Portuguese Parliament in the XIV legislature, between 2019 and 2021, and councilor for Urban Management, Planning and Urban Rehabilitation in the Municipality of Cascais (2017-2019). She graduated in Architecture from the Faculty of Architecture, University of Lisbon (1996), with the Honor Award for the Student with the Best Classification, she holds a Master's degree in Contemporary Architectural Culture (FA/Univ. of Lisbon - 2001) and a PhD in Modern Avenues (Royal College of Art, London, 2009), having obtained the Aggregation in Architecture at FA/Univ. of Lisbon in 2022.

Michel Sudarskis

Michel Sudarskis began his career in the Unit of Regional Policy of the Ministry of Finance, in charge of the regional economic policy of the Paris Region, France. Then he moved to Milan, Italy, to the International Institute for the Management of Technology (IIMT) as deputy head of the Department of Urban Technology Transfer. For over ten years Michel Sudarskis managed the civilian programs of cooperation on scientific, environmental and challenges of modern society (CCMS) at NATO in Brussels, Belgium. As Secretary General of the International Urban Development Association (INTA) he is responsible for the development of the exchange programs and transfer of know-how in

the many fields of urban development: new towns, urban renewal, mobility strategies metropolitan clusters, creativity and city innovation, housing and urban services, sustainable urbanism, renovation of historic centers, tourism and leisure as levers for development and urban integration, etc. Michel Sudarskis studied Economics, and Political Sciences in Lyon and in Paris; he holds a PhD in Political Sciences and a MS in International Economics; he received numerous academic awards in statistics and economics.

Francesc Ventura

Architect, from the Polytechnic University of Catalonia (UPC), specialized in Urban Planning. PhD in Territorial Engineering from the Instituto Superior Técnico of the University of Lisbon. Additional studies at the Faculty of Economics at the University of Barcelona and at ESADE and IESE, management functions in public administration. Former president of IFHP and founder of the “Eficiencia Locacional” office.

Throughout his professional career he has carried out the following activities in the public and institutional sector: General Director of Architecture and Housing of the Generalitat de Catalunya. Chairman of the Executive Committee and General Manager of the

Metropolitan Transport Authority (ATM) of Barcelona. Member of the Board of Directors of Ferrocarrils de la Generalitat de Catalunya. Director of the Port Authority of Barcelona, among other positions.

Alfonso Vegara

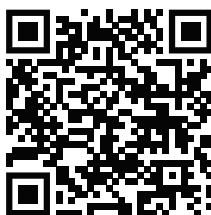

PhD in City and Regional Planning; degrees in Architecture, Economics, and Sociology. Former President of ISOCARP - International Society of City and Regional Planners - which has members in over 70 countries. He is Fellow and Trustee of the Eisenhower Fellowships; he's also been appointed as Honorary Consul General of Singapore in Madrid since 2005. He lectur Urbanism at Escuela Técnica Superior de Arquitectura de Madrid, Universidad de Navarra, and Universidad CEU San Pablo. He was also a visiting professor at the School of Design of the University of Pennsylvania, and Advisor of ETH Zurich Polytechnic. His ideas and projects have been disseminated through more than 30 books

and International Conferences in Europe, The United States, Latin America, Asia, Australia, and Africa. His projects have been awarded prizes by The United Nations, the European Union, the European Council of Spatial Planners, Architects' Associations, Entrepreneurial Associations, Cities, and National Governments. The focus of Vegara's work is to promote strategic values of cities and their future opportunities in a complex and interrelated world. His ideas and projects are presented in the books he has written: “Territorios Inteligentes” and the recently “Supercities. The Intelligence of Territory”; this last publication received the Gerd Albers Award for best book of 2016 by ISOCARP.
